

Free State Beer

Northern Lights IPA

The latest in the ever-expanding lexicon of IPAs is the Cold IPA, a style that blends old world lager ingredients and techniques with bold American hops. Akin to its namesake, this complex rendition paints a colorful palette, albeit one of flavors not light. Honeysuckle, white tea, papaya, honeydew, pink grapefruit & Riesling-like notes come from generous additions of Strata, Talus, Cashmere, and Citra hops. These late addition hops provide soft bitterness and balance to this "juicy" lager with the heart of an IPA.
